fogocharcoal.com

For everyday grilling of grill-and-eat foods like steak, burgers, chicken, etc., you don't need any over-sized chunks of lump charcoal that are really better suited for long, low-and-slow cooking. And, you don't want the smaller pieces that don't last, either. That's why, for everyday grilling, we offer our Premium Lump Charcoal, which consists of all medium-size pieces. And, like all FOGO lump charcoal, it's made from a special blend of Inga wood so it will impart that award winning. FOGO flavor to everything you cook!
